TRANSATLANTIC TRENDS

TOPLINE DATA 2010

TECHNICAL NOTE

Transatlantic Trend Survey 2010 is a project of the German Marshall Fund of the United States and the Compagnia di San Paolo (Italy) with additional support from the Luso-American Foundation (Portugal), Fundación BBVA (Spain) and the Tipping Point Foundation (Bulgaria).

Fieldwork

The fieldwork was coordinated by TNS opinion.

Interviews were conducted between 01/06/2010 and 29/06/2010 by the following institutes:

Germany - TNS EMNID - Bielefeld
France – Efficienc 3 – Reims
Italy – TNS Italy - Rome
Netherlands – Efficienc 3 – Reims
Portugal – TNS EUROTESTE - Lisbon
Spain – TNS Demoscopia - Madrid
United Kingdom – ICM – London
Poland – TNS OBOP – Warsaw
Slovakia – TNS SK s.r.o. - Bratislava
Turkey – TNS PIAR – Istanbul
Bulgaria – TNS BBSS - Sofia
Romania – TNS CSOP - Bucharest
USA – Kaplan Market Research - Radnor

Each national sample is representative of the population aged 18 years and above.

The sample sizes amount to approximately 1000 respondents in each country.

Germany: 1001
France: 1000
Italy: 1001
Netherlands: 1000
Portugal: 1000
Spain: 1003
United Kingdom: 1000
Poland: 1000
Slovakia: 1006
Turkey: 1003
Bulgaria: 1016
Romania: 1042
USA: 1000

Methodology:

Computer Assisted Telephone Interviews (except in Poland, Slovakia, Turkey, Bulgaria and Romania where face-to-face interviews were conducted due to the low telephone penetration rate in these five countries). The basic sample design applied in all states is multi-stage random (probability). In each household, the respondent was drawn at random (following the "closest birthday rule"). Up to 5 call-backs for telephone interviews and 4 visits in total for face-to-face interviews were attempted before dropping a potential respondent.

NOTE TO READERS

The summary topline report shows results for each of the 13 countries surveyed:

- USA
- FR = France
- GER = Germany
- UK= The United Kingdom
- IT = Italy
- NL = The Netherlands
- PL = Poland
- PT = Portugal
- SP = Spain
- SK = Slovakia
- TR = Turkey
- BG = Bulgaria
- RO = Romania

Results for Europe as a whole are also indicated. In order to compare with the previous results, we have processed 4 separate totals for the results of Europe:

- **Europe 7:** Results for "Europe" based on seven European countries: United Kingdom, France, Germany, the Netherlands, Italy, Poland and Portugal surveyed in 2009 (also surveyed in 2008, 2007, 2006, 2005, 2004 and 2003).
- **Europe 9:** Results for "Europe" based on the 9 European countries surveyed in 2009, 2008, 2007, 2006 and 2005 (Europe 10 minus Turkey).
- **Europe 10:** Results for "Europe" based on the 10 European countries surveyed in 2009 (Europe 7 plus Slovakia, Spain and Turkey - also surveyed in 2008, 2007, 2006, 2005 and 2004).
- **Europe 11:** Results for "Europe" based on the 11 European countries surveyed in 2008 (Europe 12 minus Turkey).
- **Europe 12:** Results for "Europe" based on the 12 European countries surveyed.

The figures given for Europe are weighted on the basis of the adult population in each of the European countries.

Where available, data from the "Transatlantic Trends 2009", "Transatlantic Trends 2008", "Transatlantic Trends 2007", "Transatlantic Trends 2006", "Transatlantic Trends 2005", "Transatlantic Trends 2004", "Transatlantic Trends 2003" surveys and the "Worldviews 2002" survey are provided. For purposes of comparison, figures are shown below the 2010 corresponding figure, in italic. The results of Worldviews 2002 are based on the 6 European countries surveyed (United Kingdom, France, Germany, The Netherlands, Italy and Poland). In order to simplify the presentation of the results, they have been included in the column Europe 7.

All figures are expressed in percentage terms. In questions where [Europe\the United States] or [European Union\the United States] figures, the former item is asked in Europe and the latter in the United States.

Due to the rounding off of the results, in certain tables the figures representing a sum of results can differ by +/- one point compared to the actual sum of individual results.

For the results based on the total sample in each of the thirteen countries, one can say with 95% confidence that the margin of error attributable to sampling and other random effects is plus or minus three percentage points. For results based on the total European sample, the margin of error is plus or minus one percentage point.

Q1a_1 How desirable is it that the United States exert strong leadership in world affairs? Very desirable, somewhat desirable, somewhat undesirable, or very undesirable?*

*For trended questions, averages were weighted on the basis of the size of the adult population in each country to maintain consistency with previous years' reports. For new questions, the results were also weighted so that the sample matches certain population characteristics.

*The US survey fieldwork was carried out by a different survey organization in 2010 than previously. This resulted in changes in trend data due to different interviewing protocols used by the new survey organization, a phenomenon called "house effect." As a result, some of the questions were asked again from a representative sample of 456 Americans between July 29, 2010 and August 4, 2010. For questions Q1b_1, Q11, Q25b, and Q26 results of the new survey were reported after a careful comparison of the data from the two surveys.

Q1b_2 How desirable is it that the European Union exert strong leadership in world economic affairs? Very desirable, somewhat desirable, somewhat undesirable, or very undesirable?*

*For trended questions, averages were weighted on the basis of the size of the adult population in each country to maintain consistency with previous years' reports. For new questions, the results were also weighted so that the sample matches certain population characteristics.

*The US survey fieldwork was carried out by a different survey organization in 2010 than previously. This resulted in changes in trend data due to different interviewing protocols used by the new survey organization, a phenomenon called "house effect." As a result, some of the questions were asked again from a representative sample of 456 Americans between July 29, 2010 and August 4, 2010. For questions Q1b_1, Q11, Q25b, and Q26 results of the new survey were reported after a careful comparison of the data from the two surveys.

Q12 Some people say that NATO should limit its mission to defending members that are attacked in Europe. Others say that NATO must also be prepared to act outside of Europe to defend members from threats to their security. Which view is closer to your own?

[Interview instruction: emphasize "outside of Europe"]

*The US survey fieldwork was carried out by a different survey organization in 2010 than previously. This resulted in changes in trend data due to different interviewing protocols used by the new survey organization, a phenomenon called "house effect." As a result, some of the questions were asked again from a representative sample of 456 Americans between July 29, 2010 and August 4, 2010. For questions Q1b_1, Q11, Q25b, and Q26 results of the new survey were reported after a careful comparison of the data from the two surveys.
